

Heron-Allen Lecture

Connectivity: The key to integrating ecology, conservation and geopolitics

Friday 2nd June

5.00pm - 7.15pm (with drinks reception)

Simpkins Lee Theatre, LMH

SPEAKER:

Dr Sam Cushman, Senior Research Fellow at WildCRU, Department of Biology, University of Oxford

Exploring how network connectivity is interlinked in disciplines as seemingly disparate as ecology and geopolitics, and forms the core basis of applied efforts to mitigate the global biodiversity and extinction crises.
